

Boateng Owusu

Frontend Developer

owusuboa05@gmail.com | +233240897702 | [LinkedIn](#) | [Github](#) | [Portfolio](#)

Professional Summary

Detail-oriented Frontend Developer with a passion for creating user-friendly and responsive web interfaces using modern technologies like React.js, HTML, CSS, and JavaScript. Known for building clean, accessible, and visually appealing UI components with a focus on performance and usability. Strong communicator with the ability to explain technical concepts clearly and collaborate effectively with cross-functional teams. Eager to grow and contribute to dynamic development environments.

Technical Skills

Programming & Development Languages: React Js, JavaScript, HTML, CSS, Tailwind Css.

Tools & Platforms: Git, GitHub, npm, Visual Studio Code.

Projects

Andy B Studio

Photography Portfolio Website - [Github Repo](#)

Technologies: HTML, CSS, JavaScript

Designed and developed a responsive photography website to showcase high-quality visual content in an elegant and user-friendly layout. The site features a dynamic image gallery, smooth scrolling, and interactive elements to enhance user engagement. Built using semantic HTML for structure, modern CSS for styling and responsiveness, and JavaScript for interactivity such as lightbox previews, image sliders, and contact form validation. Optimized for fast loading and cross-device compatibility to ensure a seamless viewing experience.

Abi's Kitchen

Restaurant Website - [Github Repo](#)

Technologies: HTML, Tailwind CSS, JavaScript

Developed a modern and responsive restaurant website for Abi's Kitchen to showcase its menu, services, and brand story. Utilized **HTML** for clean structure, Tailwind CSS for utility-first styling and responsive layouts, and JavaScript for dynamic features like an interactive navigation menu. The website emphasizes a warm user experience with intuitive navigation, eye-catching visuals, and fast load times. Designed to attract customers and improve online visibility for the brand.

Education

Diploma in Education(2015 – 2018) | Atebubu College of Education

Bachelor of Science in Information Technology Education (In School, L200) AAMUSTED

Portfolio

Portfolio: [Portfolio](#) - A responsive and clean portfolio website built to showcase my frontend development projects and skills. Designed using HTML, Tailwind CSS, and JavaScript, it features sections like About, Projects, Skills, and Contact with smooth navigation and interactive elements.

GitHub Profile: [Github Profile](#) - My GitHub showcases a variety of projects built with HTML, CSS, Tailwind CSS, and JavaScript, where I have applied strong design principles and interactivity.

I've contributed to team projects and collaborated on several repositories, gaining experience in real-world version control workflows. Additionally, I've dynamically built landing pages for brands like Miami Walker and Bonik Delivery, applying modern frontend techniques to create functional and stylish layouts.

Currently, I'm advancing my skills in React.js, and you'll start to see React-based projects appearing in my portfolio. I'm passionate about continuous learning, clean code, and building digital experiences that make a difference.
